

Tianyi Liu | Dr.-Ing.

Zusterlaan 168 – 2611 MP Delft – The Netherlands

✉ t.liu-6@tudelft.nl • 🌐 tianyiliu.work • in tianyi-liu-1b733714a

🔑 alextliu • 0000-0001-8338-1651 • Tianyi-Liu-3 • SAJ8bL8AAAAJ

Nationality: Chinese (eligible to work in EU – EU long-term residence issued by Germany)

Profile

- Current Postdoc and PhD graduate in Electrical Engineering.
- Solid knowledge in signal processing, matrix analysis, and optimization theory.
- Proficiency in parallel/distributed optimization methods in signal processing and machine learning.
- Excellent technical writing skills with 1 book section and 4 journal articles submitted.
- Proven communication and presentation skills fluently in English.

Education

Technical University of Darmstadt

Dr.-Ing. in Elect. Eng. and Inform. Technol., with distinction

Advisor: Prof. Marius Pesavento, Co-referee: Prof. Stefan Ulbrich

Committee members: Prof. Abdelhak M. Zoubir, Prof. Sebastian Schöps, and Prof. Mario Kupnik

Darmstadt, Germany

Oct. 2018 – Sept. 2024

Technical University of Darmstadt

M.Sc. in Elect. Eng. and Inform. Technol., with distinction

Recipient of the Best Master Student Award from the Dept. ETIT.

Master Thesis: *A scalable graph-based mixed-integer linear programming approach for the examination timetabling problem.*

Darmstadt, Germany

Oct. 2016 – July 2018

Politecnico di Torino

M.Sc. in Communications and Computer Networks Eng., with distinction

Turin, Italy

Sept. 2015 – July 2018

Politecnico di Torino

B.Sc. in Telecommunications Engineering

Turin, Italy

Sept. 2014 – July 2015

Tongji University

B.Eng. in Electronics and Information Engineering

Shanghai, China

Sept. 2011 – June 2015

Research Interests

- Sparse signal processing
- Parallel/distributed optimization methods: Focusing on nonconvex and nonsmooth problems
- Sensor array signal processing: Direction-of-arrival estimation
- Graph signal processing: Graph topology inference
- Algorithm unrolling
- Game theory: Generalized Nash equilibrium
- Cooperative localization and control of unmanned systems

Work Experience

Signal Processing Systems Group, TU Delft

Postdoc Researcher

Advisor: Prof. Geert Leus

Project: GraSPA (Graph Signal Processing in Action) – graph signal processing in dynamic networks

Delft, The Netherlands

June 2026 – Present

Communication Systems Group, TU Darmstadt

Guest Researcher

Job seeking and part-time research.

Darmstadt, Germany

May 2025 – May 2026

Communication Systems Group, TU Darmstadt

Doctoral and Postdoctoral Research Associate

Darmstadt, Germany

Sept. 2018 – April 2025

- PhD Thesis: *A parallel successive convex approximation framework with smoothing majorization for phase retrieval*. Developed a novel parallelizable algorithmic framework based on majorization-minimization (MM) and successive convex approximation (SCA) for a broad class of nonconvex and nonsmooth optimization problems. The main idea is to solve a difficult problem by converting it into a sequence of simpler surrogate problems. It provides the provable convergence to a generalized stationary point. As an application, I employed this algorithmic framework to efficiently address the phase retrieval with dictionary learning problem arising in X-ray diffraction imaging and joint channel estimation and signal detection in MIMO communication systems.
- Collaborative projects on separating signals of different frequencies from their mixtures with sparsity techniques, with application to direction-of-arrival (DOA) estimation using distributed passive sensor arrays.
- Other research works on graphical model learning from real-world data, including meteorological, traffic, financial, and biological data.
- Supervised student projects on analyzing the performance of the GPU implementation with CUDA of the parallel algorithms.
- Programming experiences: Most of the simulations are implemented in MATLAB, C++, or Python, and conducted on Linux-based high-performance computing clusters. Neural networks with PyTorch.
- Co-authored 1 book section, 4 internationally refereed journal articles. Presented my research at 8 international conferences in different countries.

Politecnico di Torino

Research Assistant

Developed a heuristic algorithm for optimizing constellation in satellite communication. Implemented in C++.

Turin, Italy

Mar. 2015 – July 2015

Teaching Experience

Communication Systems Group, TU Darmstadt

Teaching Assistant

Prepared and delivered tutorials in fundamental and advanced courses on matrix analysis, optimization theory, MIMO communications, graph signal processing, and machine learning. Supervised 15 individual student projects.

Darmstadt, Germany

Sept. 2018 – April 2025

Professional Skills

Signal Processing and Communications: Sparse signal processing/Compressed sensing, Dictionary learning/Sparse coding, Sensor array and statistical signal processing, Source localization/Radar, Direction-of-arrival (DOA) estimation, Beamforming, MIMO communications, Coherent diffraction imaging, Image processing, Graph signal processing, Graph topology learning, Machine learning (Graphical models, Neural networks, Graph neural networks, Algorithm unrolling)

Optimization and Mathematics: Parallel and sparse optimization methods, Least-squares and regularized least-squares, Nonlinear programming, Mixed-integer programming (MIP), Matrix analysis, Convex analysis, Graph theory, Probability theory

Programming: MATLAB, Python/Numpy/PyTorch, C/C++, Julia, Linux, Bash/Zsh, Git, CUDA

Optimization Tools: CVX, MOSEK, Gurobi, SCIP/SCIP-SDP, CPLEX

Writing and Note Management: Markdown, LaTeX, Obsidian, Zotero, PARA method, Neovim

Languages: Chinese (mother tongue), English (fluent), Italian (intermediate), German (intermediate)

Honors and Awards

Finalist of the IEEE SAM 2024 Best Student Paper Contest

2024

<i>IEEE SPS Student Travel Grant for the IEEE CAMSAP 2019</i>	<i>2019</i>
<i>Finalist of the EUSIPCO 2019 Best Student Paper Contest</i>	<i>2019</i>
<i>Best Master Student Award from Dept. ETIT, TU Darmstadt</i>	<i>2018</i>
<i>Erasmus+ Mobility Program Scholarship</i>	<i>2016–2018</i>
<i>Full Scholarship from EDISU Piemonte, Italy</i>	<i>2015–2018</i>

Participated Projects

- German Research Foundation (DFG), “The partial relaxation method in direction-of-arrival estimation: Design and analysis”, PI: Prof. Marius Pesavento, €300K, 2019–2025
- DFG priority program on Compressed Sensing in Information Processing (CoSIP), “Exploiting structure in compressed sensing using side constraints: From analysis to system design – Funding phase II”, PI: Prof. Martin Haardt, Prof. Marc Pfetsch, Prof. Marius Pesavento, €300K for each group, 2018–2021

Professional Skills Training

Attendance at the IEE-SPS/EURASIP Summer School on Network- and Data-Driven Learning 2019

Academic Service

Reviewer – Journals

- IEEE Transactions on Signal Processing (IEEE TSP)
- IEEE Transactions on Aerospace and Electronic Systems (IEEE TAES)
- IEEE Transactions on Antennas and Propagation (IEEE TAP)
- IEEE Signal Processing Letters (IEEE SPL)
- Elsevier Signal Processing

Reviewer – Conferences

- IEEE Sensor Array and Multichannel Signal Processing Workshop (IEEE SAM)

Appendix

Conferences & Workshops

Oregon, USA

July 2024

IEEE 13th Sensor Array and Multichannel Signal Processing Workshop (SAM)
Finalist of the Best Student Paper Contest

Seoul, Korea, Republic of <i>IEEE 49th International Conference on Acoustics, Speech, and Signal Processing (ICASSP)</i>	<i>April 2024</i>
Herradura, Costa Rica <i>IEEE 9th International Workshop on Computational Advances in Multi-Sensor Adaptive Processing (CAMSAP)</i>	<i>Dec. 2023</i>
Helsinki, Finland <i>31st European Signal Processing Conference (EUSIPCO)</i>	<i>Sept. 2023</i>
Toronto, Canada <i>IEEE 46th International Conference on Acoustics, Speech, and Signal Processing (ICASSP)</i>	<i>June 2021</i>
Hangzhou, China <i>IEEE 11th Sensor Array and Multichannel Signal Processing Workshop (SAM)</i>	<i>June 2020</i>
Guadeloupe, West Indies <i>IEEE 8th International Workshop on Computational Advances in Multi-Sensor Adaptive Processing (CAMSAP)</i> IEEE SPS Student Travel Grant	<i>Dec. 2019</i>
A Coruña, Spain <i>27th European Signal Processing Conference (EUSIPCO)</i> Finalist of the Best Student Paper Contest	<i>Sept. 2019</i>
